An Introduction to Ingest

Online Training Session

***Deposit and preserve your heritage
data simply and securely***

Today's Session

Outline – Today's Workshop

- 10.00–10.10: **Introduction**
- 10.10–10.20: **An Introduction to Ingest**
- 10.20–11.00: **Live Demonstration**
- 11.00–11.20: **Q & A Session**
- 11.20–11.30: **Wrap up and Feedback**
- 11.30: **Session ends**

Code of Conduct

We are committed to creating a friendly, respectful and harassment-free experience for learning.

We encourage all participants (instructor and learners) to act in the following manner and show respect and courtesy to others at all times.

- Use welcoming and inclusive language
- Be respectful of different viewpoints and experiences
- Show courtesy and respect towards other participants

Any issues please report it to me (via Zoom Direct Message or email nicky.garland@york.ac.uk).

Complaints procedure - contact help@archaeologydataservice.ac.uk

Cotswold Archaeology (2026) Digital Archive from an Archaeological Evaluation at Bedford Road, Houghton Regis, Bedfordshire, February to March 2022 [data-set]. York: Archaeology Data Service [distributor] <https://doi.org/10.5284/1139063>

<https://bit.ly/Ingest26>

What is Ingest?

The bottom of the slide features several overlapping, wavy, light purple lines that create a decorative, layered effect against the solid purple background.

- A new digital repository deposit system for archaeological and heritage data
- Designed to streamline the process of depositing data and associated metadata
- The replacement for ADS-easy (launched 2014, served for 12+ years)
- Developed through years of research, consultation, and testing with our user community

The Benefits

- ⚡ Quick to use – a streamlined workflow
- 📁 Supports multiple file formats – flexible for different data types
- 📊 Facilitates all deposit sizes – from small to large datasets
- 🤖 Automates metadata extraction – using a single template
- ✅ Validates files and metadata – during deposition catching errors early

Ingest Workflow

Step 1

Register via
UMA and
login

Step 2

Start deposit of
New Collection
via Dashboard

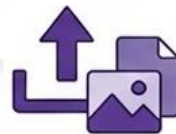

Step 3

Complete
fields for
Collection
Metadata

Step 4

Upload files
and Core
Metadata
Template

Step 5

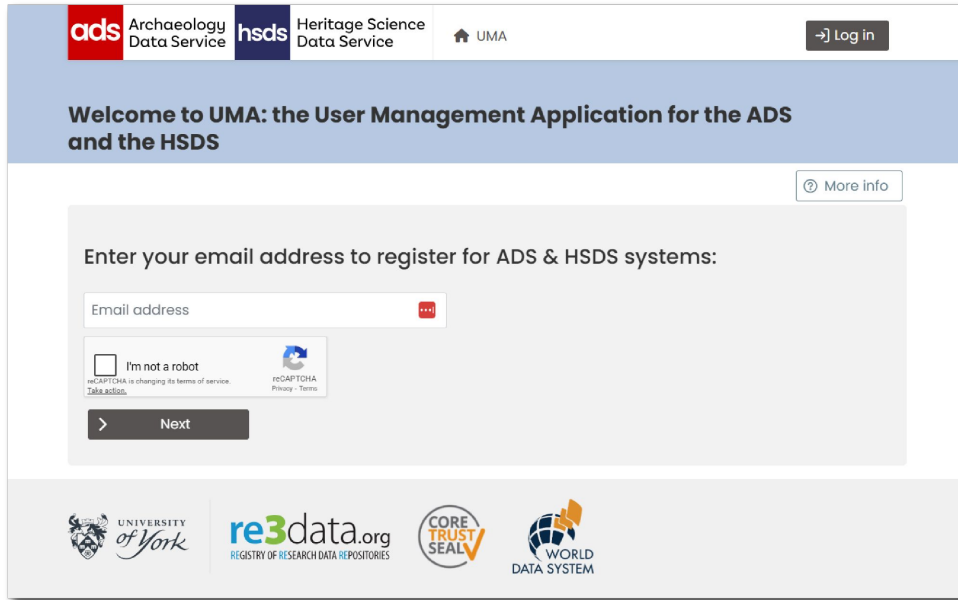

Review, fix
errors and
submit

Before you start

User Management System

The screenshot shows the User Management System (UMA) interface. At the top, there are logos for 'ads Archaeology Data Service' and 'hsds Heritage Science Data Service', along with a 'UMA' label and a 'Log in' button. Below this is a blue banner with the text 'Welcome to UMA: the User Management Application for the ADS and the HSDS'. A 'More info' link is visible on the right. The main content area is a light gray box with the heading 'Enter your email address to register for ADS & HSDS systems:'. It contains an 'Email address' input field with a red error icon, a reCAPTCHA 'I'm not a robot' challenge, and a 'Next' button. The footer features logos for the University of York, re3data.org, CORE TRUST SEAL, and the World Data System.

- Register to use Ingest via the User Management System (UMA)
- Manages access to all ADS and HSDS applications
- If you are an OASIS user, use your existing login to access
- Administer access for your organisation as an Admin user

Where Your Deposit Appears – Collection Pages

Use Ingest to control the appearance of your collection in the ADS and/or HSDS

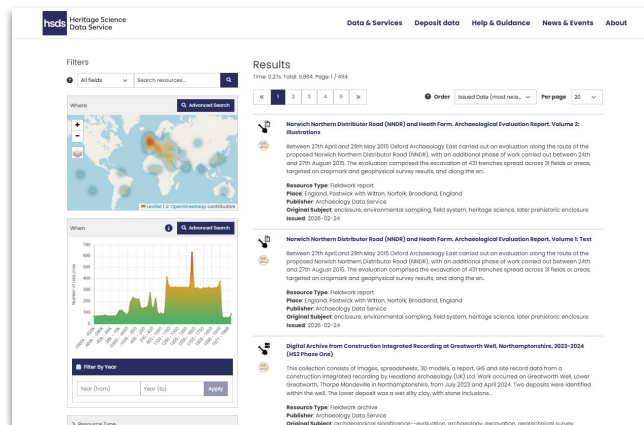

Enter Text and images to design the Introduction and Overview pages

The screenshot shows the top of a web page for the Archaeology Data Service (ADS). The header includes the ADS logo and navigation links like 'Search data', 'Deposit data', 'Help & guidance', 'News & events', 'Blog', and 'About'. Below the header, a blue banner contains the title 'Conservation Data from 'Bacino di San Marco' by Canaletto' and metadata including the date '2025. (updated 2026)' and a DOI link. The main content area has a left sidebar with links for 'Introduction' (highlighted), 'Downloads', 'Collection Metadata', and 'Usage Statistics'. The 'Introduction' section contains two paragraphs of text and a small image of a painting. Below the image is a caption: 'Full UV image of the piece 'Bacino di San Marco' by Canaletto'.

Deposition Methods

Continue to deposit with us in multiple ways

Our fast & intuitive new deposit system - launched 28th April 2026

Our existing system (no new registrations) - retiring April 2027

Contact us for collections requiring a specific interface & ADS Library datasets

Any Questions?

The bottom of the slide features several overlapping, wavy, light purple lines that create a decorative, mountain-like or water-like pattern against the solid purple background.

Live Demonstration

The bottom of the slide features a decorative graphic consisting of several overlapping, wavy, light purple lines that create a sense of movement and depth against the solid purple background.
